

# Precision DC Motor

## Value Sectional Door Opener

Welcome to our next generation of garage door openers - the Precision GTS-2

With all the essential features and quality accessories you come to expect from BnD the Precision offers excellent value.

The low-profile belt rail provides exceptionally quiet operation and allows installation in lower headroom situations.

## Why the Precision GTS-2 Opener

**The BnD Precision GTS-2 opener is a great value option that has a number of essential features;**

- Smooth and reliable door operation
- Super-fast opening speed
- Soft start and stop to reduce door stress
- Includes: 2 x Tri-Tran+ Premium Remote Controls and Wall Mount Remote Control.
- Bright LED courtesy light
- Exceptionally quiet belt rail as standard
- Heavy duty motor reliably lifts larger doors

## Intelligent Safety System (ISS)

If contact is made with an obstruction while moving, the opener either stops or reverses the door to reduce the chance of injury to persons and damage to property.

## BnD Tri-Tran+™

BnD Tri-Tran+™ multi frequency technology means your opener will never have interference from household wireless products such as baby monitors and wireless entertainment systems. So when you want your garage door to open, it will.

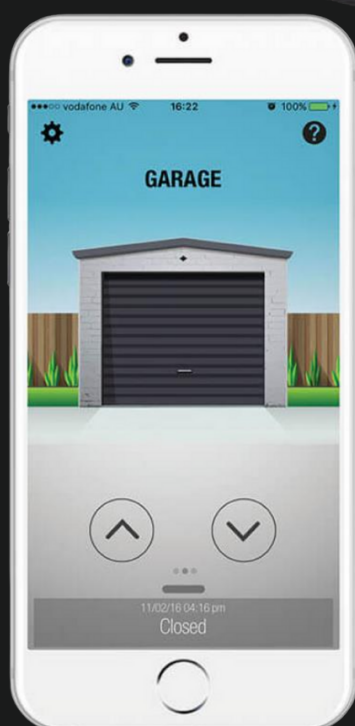

## There are also a number of Add-On Features available including;

- Safety Sensor (Recommended)
- Mobile Capability (Genius)
- Wireless Keypad
- Receiver

## Warranty

It's important to have peace of mind when you make a purchase. This premium BnD Garage Door Opener now comes with a 7-year, 20,000 cycle warranty.

# Genius DC Motor

**The Genius motor offers all the features of the Precision motor but with a Smartphone capability.**

Having the capacity to control your door while you are away from home is key to ultimate security and accessibility. This add-on allows you to control and track your door while you are away from your home or even overseas from a compatible smart phone.

- ✓ **Personalise your options** - Customisation options include partial opening or access times
- ✓ **Real-Time Notifications** - Stay up to date with operation alerts and reminders for door closure
- ✓ **Activity Log** - View usage to reveal who has operated your garage door and when
- ✓ **Service Reminder** - Get notified when your motor needs a service
- ✓ **Extensive User Access** - Give access to authorised users through the app without needing additional remotes

## Legislative Requirements - AS/NZS 60335.2.92:2012

Starting from Dec 1 2020, Standards New Zealand have updated their legislation outlining that Safety Beams are now compulsory when any new garage door smartphone-controlled opening device is installed.

While Safety Beams are recommended for every garage door this legislation will assist to eliminate a potential hazard and support ultimate safety across the garage door industry.

# Genius Checklist

## What you will need before installation:

### WiFi Connection

You will need a connected home WiFi modem router and your WiFi login details (eg. Username and password)

### Compatible Smart device

You will need a connected home WiFi (eg. Username and password) To use the Smart Phone App you will need a Smart Phone or Tablet using iOS 8.4 and above or Android 4.4 and above
