ABOUT US

Founded in 1992, Prestige Garage Doors began as a home-based, family-owned retailer of garage doors. We found that architects wanted higher-quality garage doors to wow their clients and provide longevity.

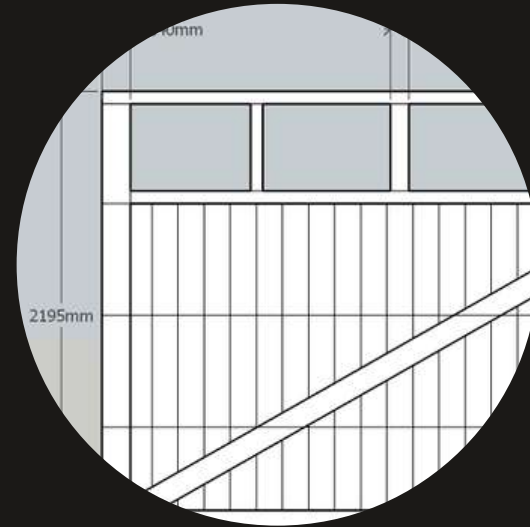

We believed that we were up for the challenge and homeowners loved what we could do. This is why we are now the leader in consulting, designing, manufacturing, and installing custom-made garage doors.

OUR PROCESS

CONSULT

Prestige have designated area representatives who will consult with you to find the best product for your property

DESIGN

Our design team will work with any builder, architect or homeowner to create the perfect garage door design

MANUFACTURE

Our specialist welders, joiners and fabricators will work together to manufacture your product with a premium quality finish

INSTALL

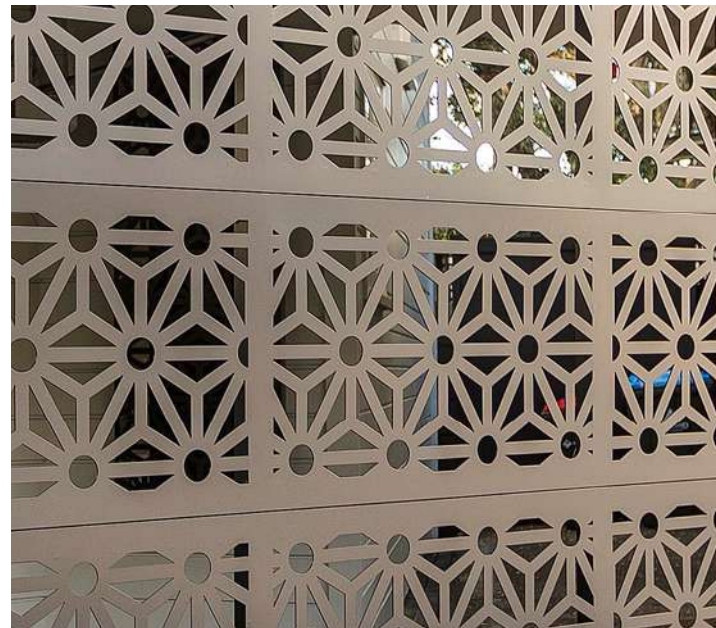

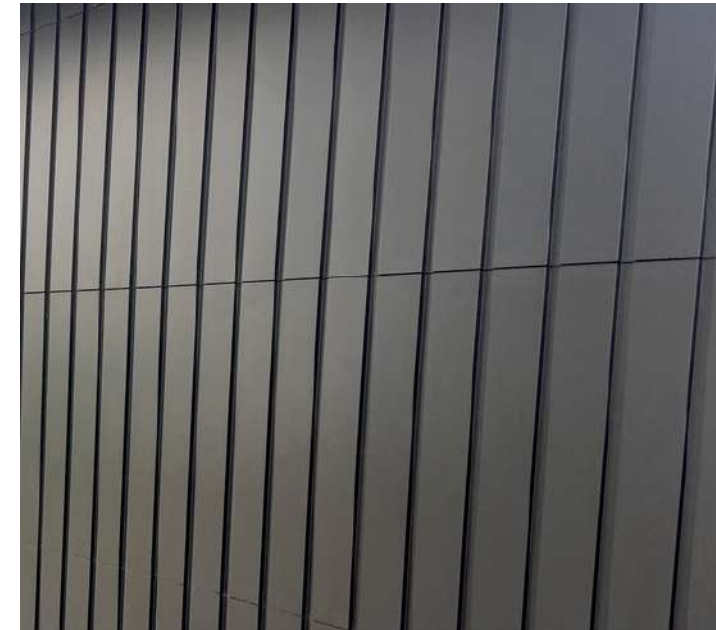

Prestige have dedicated installers who can work with your builders to ensure your garage door is installed to your site specifications

WHY ALUMINIUM?

Unlike steel alternatives, the Aluminium style **cannot rust** from New Zealand's salty air, as the frame and cladding is 100% Aluminium. This is further reinforced by the fact that the Aluminium cladding is glued, not screwed to the frame.

This particular carbond glue used is extremely strong and durable, shown by the fact that it is able to withstand the 220°C required to powder coat the panels.

WELDED BOX FRAME

These frames are perfect for;

- **High Impact Resistance & Security**
- **Oversize or Heavy Doors**
- **Properties Near The Sea (Salty Air)**
- **Cedar Doors, which require a large fixing area**

These frames allow for a far **greater fixing surface** for glue to ensure the cladding material doesn't come off the frames.

Being welded they can **never come apart or loosen** like other frames that are screwed or nailed. As garage doors are moving objects, there is constant pressure on any fixings.

ALUMINIUM TGV

HORIZONTAL • VERTICAL • CUSTOMISABLE

- ✓ **No Paint / Stain Required**
- ✓ **Durable Double Walled Aluminium Cladding**
- ✓ **Lifetime Warranty on Welded Box Frame**

Prestige has stood above all other door suppliers I have worked with for the last 20 years. In my experience as a builder I have found Prestige staff & services be the most professional , well structured innovative garage door company in the country !

I have and always will recommend Prestige (products & services) to clients , fellow tradesman any & all whom enquire !

-TM, LBP

Prestige Garage Doors came highly recommended by some neighbourhood friends. It's fair to say, they absolutely lived up to the recommendation. Their end-to-end process, from initial on-site consultation to final installation and follow up was seamless. One of their local managers made contact quickly after I sent through an online enquiry, and while on-site clearly explained everything I wanted to know - from materials used, options for insulation, door colouring, durability of materials, measurements to be taken, installation time-frames, and warranties, etc. Their office team kept in touch throughout the door manufacturing process with updates. The installation was able to take place earlier than expected, and their installation technician clearly explained all the functions incorporated with the door. Together, their team did an amazing job. So pleased - happy to continue to recommend them.
